<u>**User Stories**</u>

Log-in / Log-out

- As a new user, I want to securely create an account / log-in to access the app's functionality
  - *Inputs for first-time log in: Name, email, and password*
- As a registered user, I want to log into my account and access the app's functionality
  - *Inputs for existing users: email and password*
- As a logged-in user, I want to log out of the application

Placing an Order (2 options based on whether we implement full order/item selection/payment process or just signaling intent to buy something when beverage cart arrives)
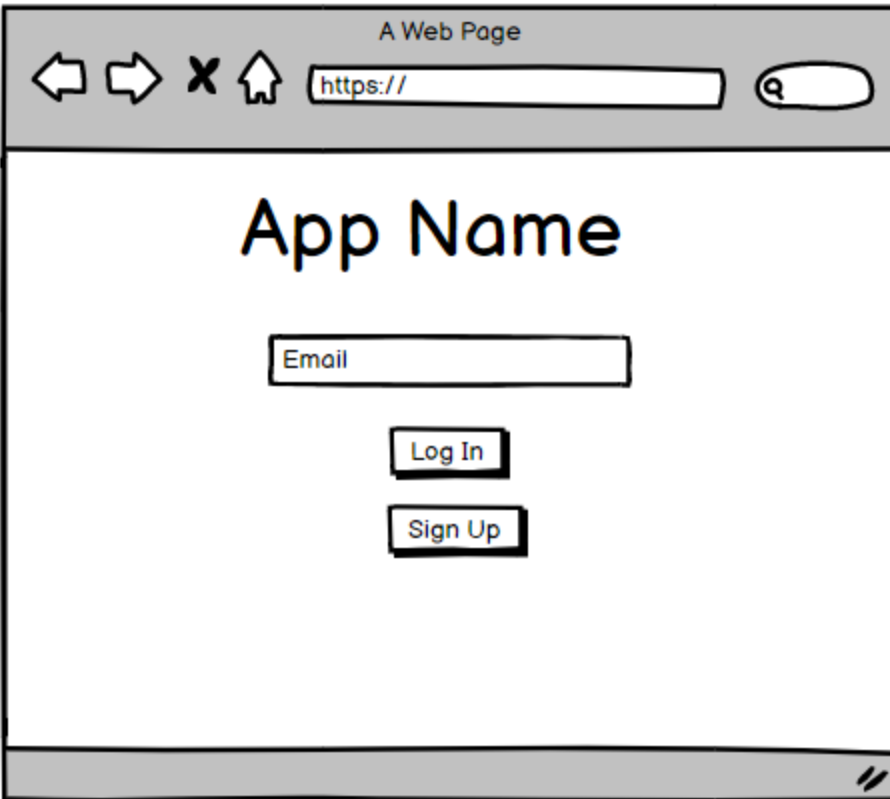

- As a logged in user, I want to indicate that I would like to purchase something
  - Input – golf course, hole number, time requested, tip pledge
- As a logged in user that has placed an order request, I want to see my spot in the queue
  - *Will be accomplished through a public view of order requests covered below*

Beverage Cart Attendant / Public View functionality
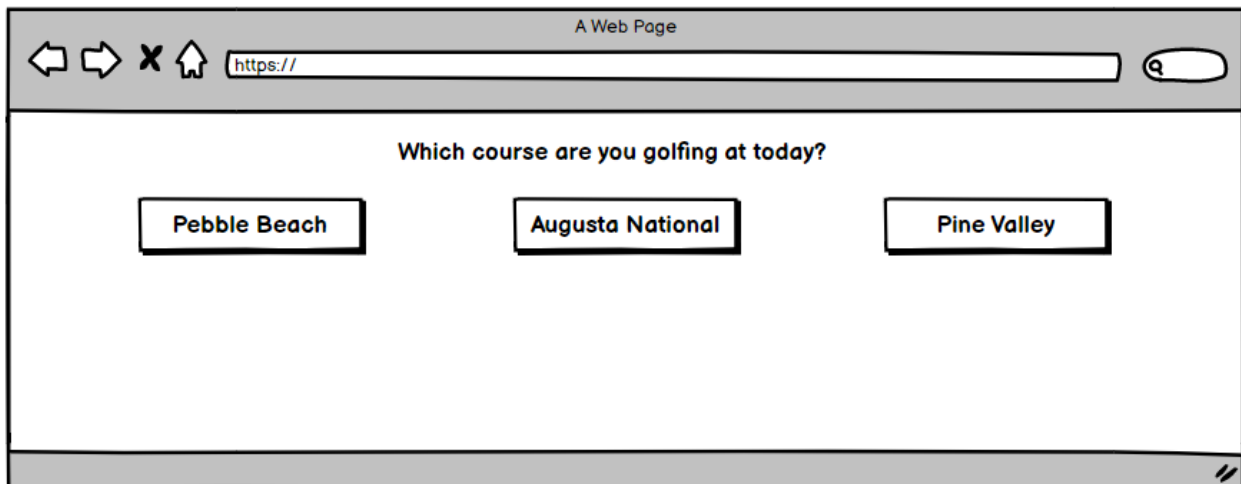

- As the cart attendant, I would like to see all user requests via:
  - Name / ID
  - Golf course
  - Hole # location
  - When they submitted their order request
- As the cart attendant, I would like to sort request by those who have pledged a tip
- As the cart attendant, I want to denote that I have fulfilled an order to delete that request from the queue

Requested 4 minutes ago

☐ Order fulfilled?

Name: Test3
Location: Hole 11
Tip Pledge: No
Requested 7 minutes ago

☐ Order fulfilled?

Additional Planning – Firestore Collection Thoughts

- Users --> Write to firestore
- Golf Course Selection --> Read from firestore
    - User specific??
- User-specific order requests --> Write to firestore
